

# Make a business impact with strategic workplace EV charging

Drive charging ROI, control access and energy usage, and report financial data to stakeholders with ChargePoint.

## Address the rise in EV adoption

**>6.3 million** global passenger EVs sold in 2021<sup>1</sup>

**93%** expected growth in global passenger EV sales from 2022 to 2025<sup>1</sup>

**1 in 4 drivers** in the U.S. plan to get an EV for their next car<sup>2</sup>

## Meet corporate and financial goals

**83%**

of C-suite leaders and investment professionals say ESG programs will become even more important to shareholders by 2025<sup>3</sup>

**88%**

of millennials say a job is more fulfilling when it gives them an opportunity to make a positive impact on social and environmental issues.<sup>4</sup>

**\$2 billion**

in public policy incentives available to workplaces in North America

## Manage costs effectively

**Subscription pricing** that includes software, hardware, installation and expert service in one flexible bundle

**Utility expense** tools to help track energy usage and keep costs low

**Cost controls** to set usage fees for different driver groups such as employees, visitors or the public

**35+** prebuilt dashboards to easily track financial data such as session fees, utility costs and more

“We weren’t interested in getting into the EV charging business. Having ChargePoint manage our charging services is a benefit for us. It takes one more thing off our plate and allows us to budget the cost annually so we know there will never be any surprises.”
